Performance & SEO: Basic On-Page SEO, Website Speed Optimization, Image Optimization, Lazy Loading, Code Optimization, Performance Best Practices, Core Web Vitals (Basic), and Shopify Store Performance Optimization.

Professional Experience

Web Designer.

Currently I am working as a Sr. Web designer in Web Dinghy (www.webdinghy.com) from last 20+ months.

Duties:

- Created and optimized user interfaces for web and mobile applications using Canva/Figma/Photoshop.
- Designing website, social media post, banners, logo...etc
- Collaborated with cross-functional teams to ensure seamless implementation of designs.
- Conducted user research and usability testing to inform design decisions, leading to improved user experiences.
- Contributed to the maintenance and updating of design systems to ensure consistency across projects.

Previous Projects

I have worked on over 20+ sites while working in the company with layout designing and converting in code. You can check some projects below.

1. Websites Design in Figma
